www.montanwerke-brixlegg.com - Nachhaltiges Kupfer für eine saubere Klimazukunft

www.montanwerke-brixlegg.com - Sustainable Copper - Nachhaltiges Kupfer aus Brixlegg für die Wirtschaft von morgen . Due to its properties, copper is an extremely important material for a wide variety of industrial applications. However, the production of copper is often neither environmentally friendly nor sustainable. Therefore, Montanwerke Brixlegg has specialized in the recycling and upcycling of copper. The resulting sustainable copper consists of 100% recycled raw copper, which is recycled using 100% renewable energy. As a result, our sustainable copper has the lowest carbon footprint.
