

German´s bring Top IT Conference to New York, Worldcongress on the Frontiers in Intelligent Data and Signal Analysis, DSA2013 www.worldcongressdsa.com

German´s bring Top IT Conference to New York, July DSA2013 Worldcongress on the Frontiers in Intelligent Data and Signal Analysis (www.worldcongressdsa.com)
For the second time, German´s bring Top IT Conference to New York. For two weeks top researchers from all over the world will meet in New York for the Worldcongress on the Frontiers in Intelligent Data and Signal Analysis, DSA2013 (www.worldcongressdsa.com) and discuss new topics in intelligent data and signal analysis.

The congress will run from 13 to 25 July, 2013. The congress is comprised of three top conferences: the Intern. Conference on Machine Learning and Data Mining MLDM2013 (www.mldm.de), the Industrial Conference on Data Mining ICDM2013 (www.data-mining-forum.de), and the International Conference on Mass Data Analysis of Images and Signals with Applications in Medicine, r/g/b Biotechnology, Food Industries and Dietetics, Biometry and Security, and Agriculture MDA2013 (www.mda-signals.de).

Five workshops will run in connection with the worldcongress (<http://www.worldcongressdsa.com/workshops.html>): International Workshop Case-Based Reasoning CBR-MD 2013, International Workshop on Data Mining in the Life Sciences DMLS 2013, International Workshop on Data Mining in Marketing DMM 2013, International Workshop Data Mining in Agriculture DMA 2013, International Workshop on Intelligent Pattern Recognition and Applications WIPRA 2013.
In addition to that five tutorials on hot topics in machine learning and data mining will be given that allows newcomers in the field to get a quick introduction to the field and overview (<http://www.worldcongressdsa.com/tutorials.html>):

Case-Based Reasoning Tutorial, Data Mining Tutorial, Tutorial on Intelligent Image Interpretation and Computer Vision in Medicine, Biotechnology, Chemistry
 Food Industry , Tutorial Big Data
 Text Analytics, Tutorial Standardization in Immunofluorescence.
The 13th Industrial Exhibition on Intelligent Data and Image Analysis IEDA 2013 (<http://www.iedaexhibition.de>) from July 19-21, 2013 is held in connection with DSA. This is an excellent opportunity for companies and institutions to show their products. Visitors and congress participants can become aware of new products and technologies. A job fair will be held and allows companies to attract the best researcher in the field for their mission.
An exciting social program will be featured during this congress.
Do not miss this event. We are looking forward to meet you. The registration to the public audience is now open at www.worldcongressdsa.com/registration.html.
