Welcome to Speed Date USA. We are a specialized speed dating service that places the community of singles, in your area, with one another. As first date experts, we know that meeting people at the bar scene quickly becomes old and the online dating scene is just too impersonal. That's why we have been providing your area with the best single events to meet the demands of our singles community nationwide. Did you know that nearly half of the adult population in the U.S. is single? With an estimated 92 million singles in this country, there are more people in search of love today than ever before. And let's face it; we are busy people in a fast-paced world. With job pressures mounting and deadlines needing to be met, it is becoming harder than ever for single professionals to find the time to date. And as for those who do have the time, how do they sift through a sea of other singles to find the right one? Speed Dating brings together a large number of singles providing the opportunity to meet in a fun, social, pressure-free environment, where they can get to know each other within a matter of minutes. Events take place in restaurants, lounges and other upscale venues. There is always a balanced ration of men and women, so no one is ever left feeling uncomfortable. Speed Dating's popularity has skyrocketed over the past couple years because it offers a refreshing alternative to traditional dating. Go out for an early evening and enjoy multiple dates. Then, after the event, simply log online within 36 hours, choose your matches, and decide for yourself who you really want to see again. Speed Dating takes away the upfront uneasy feelings of rejection and allows you to simply have fun and meet multiple new people in one affordable night. <http://www.meetlovesmatch.de>
